

Major Academic Plan (MAP)

Associate in Arts and Science

BA in Economics with Mathematics Option

Department of Economics

College of Business and Public Administration (CBPA)

Why study economics?

Economics helps us understand and explain a variety of topics such as employment, inflation, business cycles, economic growth, markets, competition, international trade, economic history, and public policy.

Career Opportunities

This economics degree with math option provides strong quantitative and analytical training for those considering a career as an analyst and for those planning to attend graduate schools in economics or business.
