

Major Academic Plan (MAP)

Associate in Arts and Science

BAB in Management Information Systems

Department of Business Administration

College of Business and Public Administration (CBPA)

Why study management information systems?

Information systems support business operations and decision making. Today, driven by basic changes in how business is done, information technology and information services strategy may be the single biggest determinant of a company's future success. The person who understands and manages information systems plays a pivotal role in the organization.
