Major Academic Plan (MAP)

Associate in Arts
BS in Applied Developmental Psychology
Department of Psychology
College of Social Sciences (CSS)

Why Study Psychology?

The Bachelor of Science in Applied Developmental Psychology prepares students for entry-level work and graduate study in a variety of developmental and human service careers. The program covers basic areas of human developmental psychology across the life span with a special focus on process and principles of developmental change. The program prepares students for a variety of entry level social service positions in community services and graduate study in counseling, psychology and other human service professions.
